

**VERMONT AGENCY OF NATURAL RESOURCES**  
**STREAM ALTERATION INDIVIDUAL PERMIT APPLICATION**

10 VSA, CHAPTER 41, SUBCHAPTER 2

<b>Agency Use Only</b>
Project # _____
Receipt Date _____

Applicant Name Champlain VT, LLC, d/b/a TDI-New England

Mailing Address c/o Mr. Donald Jessome, General Manager  
PO Box 155, Charlotte, VT 05445

Phone 802-477-3830 Cell 902-440-0664 Email donald.jessome@chvtllc.com

Project Location: Town See attached map Stream See attached map Lat \_\_\_\_\_

Nearby town highway or state route See attached map **\*\*ATTACH MAP\*\*** Long \_\_\_\_\_

**Project Description:**

Magnitude (length, volume, etc.) The overall project includes approximately 97 miles of underwater cable in Lake Champlain and approximately 57 miles overland within existing public roadway rights-of-way.

Purpose To provide electricity generated by renewable energy sources in Canada to the New England electric grid.

Construction Procedure The cable will be installed using a variety of construction methods, including open trench excavation, horizontal directional drilling, and culvert splices. See attached typical details for more information.

Erosion/Sediment/Water Control Procedure Erosion prevention and sediment control details will be applied throughout the project area. Specific stream crossing water management details are included in the attached typical details and will be applied at the stream crossings.

**ATTACH 2 COPIES :** layout plan, typical or surveyed cross sections, stream profile and pertinent hydraulic or hydrologic information

Consultant/Project Supervisor \_\_\_\_\_ Phone \_\_\_\_\_ Email \_\_\_\_\_

Duration of in-stream construction (anticipated) In stream work is anticipated to take one day at each crossing.

Name and addresses of landowners and/or abutters adjacent to or across the stream from the project: Signatures are necessary if you intend to work on adjacent property or if the project will directly affect the property of others. Attach extra sheet, if needed.
